OUR FIRM

HUASUN is a law firm of patent attorneys and attorneys-at-law. We advise and represent our clients in all issues of German and European intellectual property (IP) rights. The emphases of our work include patents, utility models, designs, trademarks, etc. We are the first law firm of patent attorneys and attorneys-at-law in Germany founded by German patent attorney with Chinese background. Our team is composed of experts with long-term working experience in the area of German and European intellectual property rights.

We competently support our clients in all issues of German and European intellectual property rights. The multi-culture background of our law firm enables us to provide better service to our clients, especially in complicated multi-national disputes in the area of intellectual property rights.

HUASUN law firm serves clients ranging from international firms to individual inventors in their exploitation and protection of intellectual property rights in Germany and Europe.

Yiming Sun

German Patent Attorney
European Patent Attorney
European Trademark & Design Attorney
Director of the firm

SERVICES

Intellectual property: Prosecution

Munich is known as the "patent capital" of Germany or even the whole Europe. The German Patent and Trademark Office, the German Federal Patent Court as well as the European Patent Office are all located in Munich. Thus, Munich plays a very important role for international companies to develop their intellectual property strategies in Europe. Based in Munich, we can conveniently help our clients to obtain various IP rights in Germany and Europe.

We help you to obtain particularly the following IP rights:

- European patents
- Community trademarks
- Community designs
- German utility models
- German patents
- German designs
- German trademarks
- other kinds of industrial IP rights

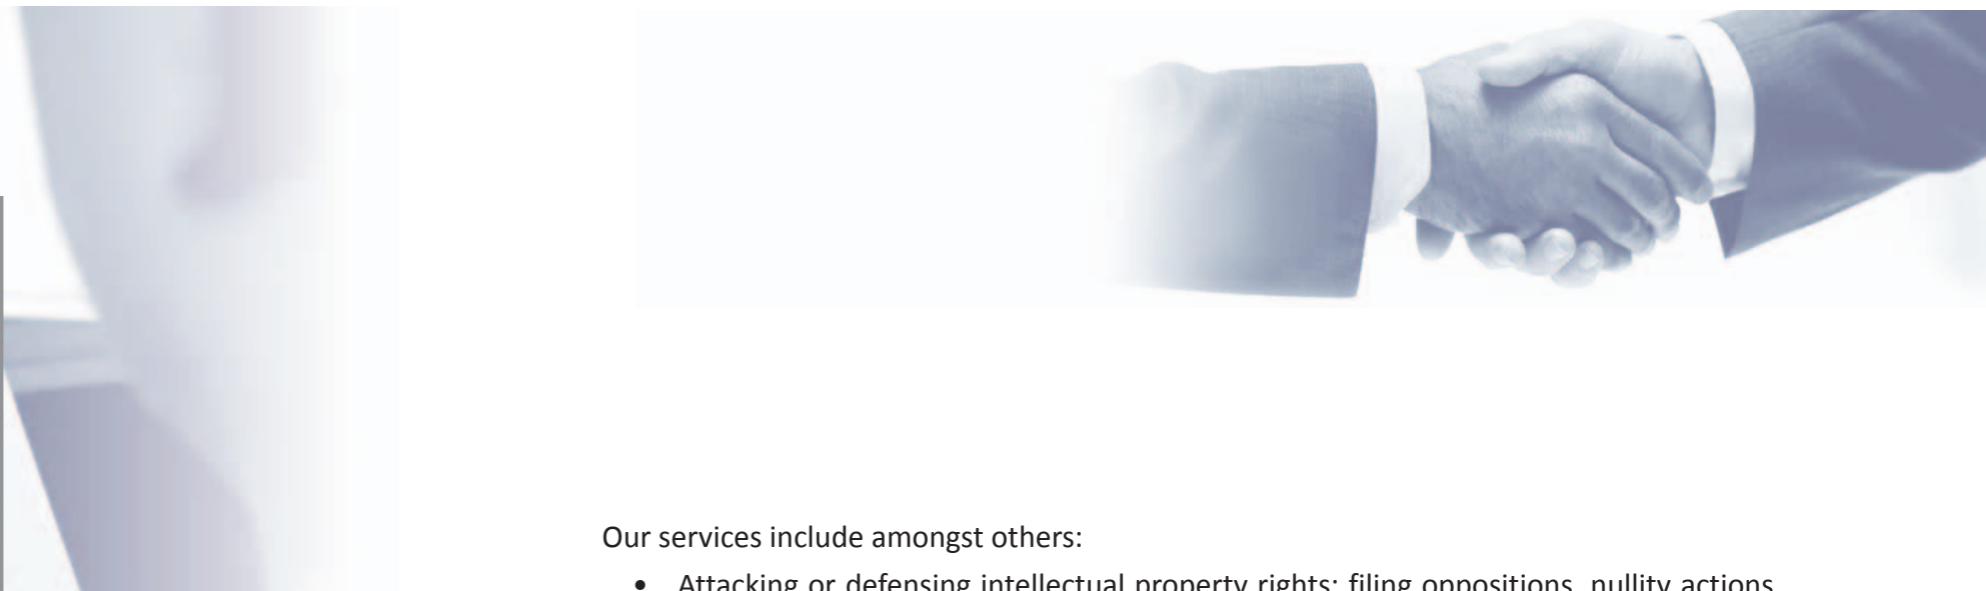

Our patent attorneys and attorneys-at-law represent our clients for all kinds of IP rights applications before

- the European Patent Office
- the Office for Harmonization in the Internal Market (EU trademarks and designs)
- as well as the German Patent and Trademark Office

Our services cover, amongst others, the following areas:

- Elaborating application documents (e.g. patent descriptions, patent claims, and application forms)
- Translating application documents or priority documents
- Filing applications or taking over the representation of applications
- Paying official fees arising from the process of an application
- Handling all kinds of official communications, e.g. replying to the examination reports
- Monitoring all kinds of time limits
- Paying renewal fees to maintain your IP rights

Intellectual property: Non-Prosecution

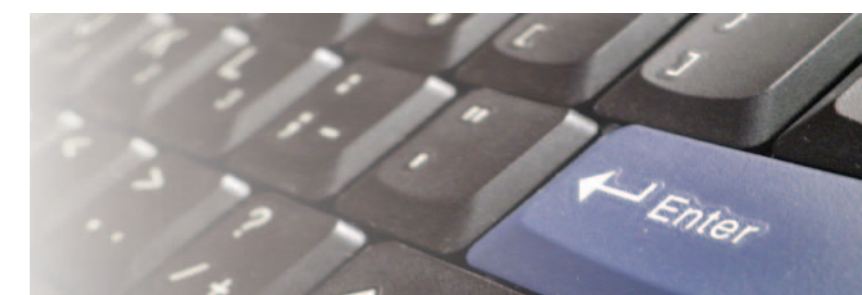

Germany is the leading country in Europe in both economy and technology. As the IP competition becoming fiercer and fiercer in the whole world, Germany is recognized as an essential IP rights battlefield for many international companies due to its efficient legal system and rapid judicial process. World famous companies like Apple, Samsung, Nokia, Motorola, Microsoft etc. have frequently IP lawsuits in Germany.

Our IP non-application services cover all the opposition, invalidity/revocation, infringement procedures, which are related to patent, utility model, design, trade mark and other industrial IP rights. Our patent attorneys and attorneys-at-law are able to handle the disputes before

- the European Patent Office
- the Office for Harmonization in the Internal Market (EU trademarks and designs)
- the German Patent and Trademark Office
- the Community Design Courts
- the Community Trademark Courts
- the German Federal Patent Court
- as well as German District Courts

Our services include amongst others:

- Attacking or defending intellectual property rights: filing oppositions, nullity actions, limiting actions, deleting actions, etc.; or helping you protect your rights if they are under attack
- Enforcing intellectual property rights or the reaction: sending warning letters to potential infringers, filing infringement suits; or acting against such enforcement actions from the third parties
- Legal support at exhibitions: requesting preliminary injunctions from courts against your competitors; or filing oppositions against preliminary injunctions, filing protection letters to avoid the issuing of preliminary injunctions
- Search: worldwide search for intellectual property rights, legal status, or prior art
- Opinion: elaborating opinions on whether an intellectual property right is legally valid or whether an action infringes intellectual property rights
- Freedom to operate analysis: analysing whether you can start marketing your new products in Europe without the concerns of infringing intellectual property rights of your competitors
- Contracts: drafting license contracts, technology transfer contracts, non-disclosure agreements, purchasing or transferring contracts for intellectual property rights
